

Gold Medal Series T

“...the quietest cutting blade in our test...”
 Wood Magazine, Feb. 2000 (page 65)

Why??...(The least vibration is why!)

GOLD MEDAL

One Table Saw, One Blade: NO PROBLEM!

This is the top of the line choice for the serious craftsman who wants one superior table saw blade for most all woodworking.

Saw plate run-out less than .002” for flat true run. Built-in dampening system reduces vibration, making cuts quieter and more precise. Performs smooth, easy crosscuts and rips. Even does a great job on double sided laminates.

Carbide tip material is an extra hard, C-4 and super fine grain with corrosion inhibitors to give the keenest edge and longest sharp-life.

NO STABILIZER PLATES NEEDED!

EACH BLADE FEATURES:

- Fully-hardened, expertly-tensioned tool steel body for true and accurate cuts, meticulously hand hammer tensioned.
- A new grade of extra hard carbide resists both abrasive and chemical wear better than standard grades for longer life.
- Resin bond-filled expansion slots to absorb any vibration and reduce cutting noise.
- TENRYU'S fine grit honing ensures mirror finish on carbide for the keenest possible edges and a super clean cut.

Gold Medal Series

Model #	Dia	Teeth	Arbor	Grind	Kerf	Rake	Application
GM-25540	10"	40	5/8"	ATB	.111"	20	The highest quality combination blade you can buy. Rip or cross-cut in thick or thin materials.
GM-30560	12"	60	1"	ATB	.118"	20	The highest quality combination blade you can buy. Rip or cross-cut in thick or thin materials
GM-35560	14"	60	1"	ATB	.126"	20	The highest quality combination blade you can buy. Rip or cross-cut in thick or thin materials

"I have used this blade for a while now and am more impressed with it than before. I cannot believe the cut I get with this combination on oak veneer plywood"

Mike Bridges, Mike's Custom Woodworking

"An unexpected surprise is the ease of feed with your blade. I can not tell when the blade contacts the wood and I can tell no difference in pushing pressure when the stock clears the blade."

Hal Taylor, Hal Taylor Museum Quality Works of Art in Wood
